Installationskanalsystem för elektriska installationer – Del 2-3: Särskilda fordringar på slitsade kanaler för användning i kopplingsutrustningar

*Cable trunking systems and cable ducting systems for electrical installations –
Part 2-3: Particular requirements for slotted cable trunking systems intended
for installation in cabinets*

Som svensk standard gäller europastandarden EN 50085-2-3:1999. Den svenska standarden innehåller den officiella engelska språkversionen av EN 50085-2-3:1999.

Standarden skall användas tillsammans med SS-EN 50085-1, utgåva 1, 1997.

ICS 29.120.10

Standarder kan beställas hos SIS Förlag AB som även lämnar allmänna upplysningar om svensk och utländsk standard.

English version

Cable trunking systems and cable ducting systems for electrical installations
Part 2-3: Particular requirements for slotted cable trunking systems intended for installation in cabinets

Systèmes de goulotte et systèmes de conduit profilé pour installations électriques
Partie 2-3: Règles particulières pour les systèmes de goulotte de câblage pour installation dans les armoires

Elektroinstallationskanalsysteme für elektrische Installationen
Teil 2-3: Besondere Anforderungen an Verdrahtungskanäle zum Einbau in Schaltschränke

This European Standard was approved by CENELEC on 1998-08-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard was prepared by the Technical Committee CENELEC TC 213, Cable management.

The text of the draft was submitted to the formal vote and was approved by CENELEC as EN 50085-2-3 on 1998-08-01.

The following dates were fixed:

- | | | |
|--|-------|------------|
| - latest date by which the EN has to be implemented at national level by publication of an identical national standard or by endorsement | (dop) | 2000-01-01 |
| - latest date by which national standards conflicting with the EN have to be withdrawn | (dow) | 2001-08-01 |

This standard is a system standard for cable management products used for electro-technical purposes. It relates to the Council Directives on the harmonization of the laws of the Member States relating to electrical equipment designed for use within certain voltage limits - Low Voltage Directive (73/23/EEC) - through consideration of the essential requirements of this directive.

This standard is supported by separate standards to which references are made.

This part 2 is to be used in conjunction with EN 50085-1:1997, Cable trunking and cable ducting systems for electrical installations -- Part 1: General requirements.

This part 2 supplements or modifies the corresponding clauses of part 1.

Where a particular clause or subclause of part 1 is not mentioned in this part 2, that clause or subclause applies as far as is reasonable. Where this part 2 states "addition" or "replacement", the relevant text of part 1 is to be adapted accordingly.

Subclauses and figures which are additional to those in part 1 are numbered starting from 101.

Clause	Contents	Page
1	Scope.....	4
2	Normative references.....	4
3	Definitions.....	4
4	General requirements.....	5
5	General conditions for tests.....	5
6	Classification.....	5
