Som svensk standard gäller europastandarden EN 61236:1995. Den svenska standarden innehåller den officiella engelska språkversionen av EN 61236:1995.

Nationellt förord

Europastandarden EN 61236:1995

består av:

- europastandardens ikraftsättningsdokument, utarbetat inom CENELEC
- IEC 1236, First edition, 1993- Saddles, pole clamps (stick clamps) and accessories for live working

utarbetad inom International Electrotechnical Commission, IEC.

För att underlätta återgivning, har sidor med både engelsk och fransk text i IEC 1236 bibehållits tvåspråkiga.

This European Standard was approved by CENELEC on 1995-03-06. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The text of the International Standard IEC 1236:1993, prepared by IEC TC 78, Tools for live working, together with common modifications prepared by the Technical Committee CENELEC TC 78, was submitted to the formal vote and was approved by CENELEC as EN 61236 on 1995-03-06.

The following dates were fixed:

- latest date by which the EN has to be implemented
at national level by publication of an identical
national standard or by endorsement (dop) 1996-03-01
- latest date by which the national standards conflicting
with the EN have to be withdrawn (dew) 1996-03-01

For products which have complied with the relevant national standard before 1996-03-01, as shown by the manufacturer or by a certification body, this previous standard may continue to apply for production until 2001-03-01.

Annexes designated "normative" are part of the body of the standard.
In this standard, annexes A, B, C and ZA are normative.
Annex ZA has been added by CENELEC.

Endorsement notice

The text of the International standard IEC 1236:1993 was approved by CENELEC as a European Standard with agreed common modifications as given below.

Annex ZA (normative)

Normative references to international publications with their corresponding European publications

This European Standard incorporates by dated or undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of any of these publications apply to this European Standard only when incorporated in it by amendment or revision. For undated references the latest edition of the publication referred to applies (including amendments).

NOTE: When an international publication has been modified by common modifications, indicated by (mod), the relevant EN/HD applies.

INTRODUCTION

This International Standard covers general matters. It should not be considered complete in itself and it leaves to each customer the task of adding his own complementary requirements. These will cover, for example, required mechanical performance and conditions of interchangeability with equipment already in service.

SADDLES, POLE CLAMPS (STICK CLAMPS) AND ACCESSORIES FOR LIVE WORKING

Section 1: General

1.1 Scope

This International Standard is applicable to saddles and pole clamps (stick clamps) used for live working, and to their accessories.

It specifies:

- the dimensional and mechanical characteristics to be given by the manufacturer for each tool;
- the corresponding mechanical tests;
- the other points to be checked (visual, functional, marking, etc.).

1.2 Normative references

The following normative documents contain provisions which, through reference in this text, constitute provisions of this International Standard. At the time of publication, the editions indicated were valid. All normative documents are subject to revision, and parties to agreements based on this International Standard are encouraged to investigate the possibility of applying the most recent editions of the normative documents indicated below. Members of IEC and ISO maintain registers of currently valid International Standards.

IEC 50(151): 1978, *International Electrotechnical Vocabulary - Chapter 151: Electrical and magnetic devices*

IEC 410:1973, *Sampling plans and procedures for inspection by attributes*

IEC 855:1985, *Insulating foam-filled tubes and solid rods for live working*
